- ◆ Opportunities to present trenchless papers at various one-day seminars organized by SASTT in collaboration with various industry partners.
- ◆ The opportunity to contribute to the finalization of various trenchless standards or specifications drafted by SASTT.

3. Banking Details

- ◆ Bank: FNB
- ◆ Branch: BELLVILLE
- ◆ Name: SASTT
- ◆ Account: 62858785797
- ◆ Bank code: 250655
- ◆ Swift Code: FIRZAJJ

4. Subscription validity period

- ◆ Valid from 1 February 2024 till 31 January 2025 and renewable on an annual basis. New rates will be communicated annually.

WHY DIG TRENCHES WHEN YOU CAN GO TRENCHLESS

ANNEXURE A: SOUTHERN AFRICAN SOCIETY FOR TRENCHLESS TECHNOLOGY CODE OF CONDUCT.

Within the context of trenchless technology (TT), members of the Southern African Society for Trenchless Technology (SASTT) arrange their professional and business affairs in accordance with the objectives of the mission statement of SASTT, viz:

The Southern African Society for Trenchless Technology is aware of the necessity for maintaining a healthy environment and addressing the changing needs of the community.

Our mission is to promote, from an ethical and neutral base, the use of TT for providing and maintaining underground services with a minimum of surface and environmental disruption.

This we do by:

- making press releases
- arranging promotional activities
- advising on available solutions
- Provide technical literature supporting research for the benefit of
 - the public
 - authorities
 - designers and specifiers
 - suppliers of materials and equipment
 - contractors installing and maintaining services.

To this end, the members of SASTT will, inter alia, conduct their business with respect to TT in such a way that:

- they practice occupational safety in accordance with legislation and regulations.
- they protect life on earth as well as the environment in a sustainable manner.
- they arrange their work in accordance with appropriate standards or best practices.
- they work to a system of quality management.
- they re-use or recycle physical resources if possible and dispose of waste in an environmentally sound manner.
- they seek cost-effective solutions for the benefit of their clients.
- they do not get involved in conflicts of interest.
- They do not accept sub-contracted work without the knowledge of the client.
- in accordance with their capabilities, they strive to improve their knowledge and skill in engineering technology, and TT.
- they enhance the understanding of TT among their clients and their peers.
- only professional persons (i.e., persons on a par with PrEng or PrTechEng) draw up trenchless-technology specifications, and such specifications are only made available to other registered professional persons unless they are published under the auspices of SASTT.
- they always apply independent and impartial judgment.
- if an allegation is made to SASTT regarding a breach of this code of conduct, the alleged offending member shall consent to an investigation of such allegation in a manner to be decided by the board of SASTT and shall give his full cooperation. However, any censure on errant members shall be left to authorities such as the Engineering Council of South Africa, Agreement South Africa, and the SABS
- unprofessional or dishonest conduct is reported via the appropriate channels.
- SASTT or its members are not brought into disrepute.
- They promote the registration of their employees, who are eligible to do so, with the Engineering Council of South Africa (ECSA)
